

The Fairbanking Mark
Regular Savings Specification

Fairbanking Foundation

The Fairbanking Foundation is a charity dedicated to encouraging and helping financial providers to improve the financial well-being of their customers and as a result the UK public.

We do this through;

Research and Ratings Reports

Industry wide, independent surveys of retail products in the market or along retail themes.

Advice and Training

A programme of services to help financial services providers capitalise on Fairbanking research, coupled with the latest thinking in behavioural economics, to create products and processes that better serve customers.

Fairbanking Marks

The Fairbanking Mark certification scheme is a market leading programme accredited by the UK Accreditation Service (UKAS) for financial products in the UK. Its certification procedure is similar to bodies such as the British Standards Institute (the "kitemark").

The methodology to analyse product features and their impact on financial well-being has been developed into 9 product specifications.

- ▶ Credit Card
- ▶ Current Account with overdraft
- ▶ Current Account without overdraft
- ▶ Personal Loan
- ▶ Personal Loan (High APR)
- ▶ Regular Savings
- ▶ Childrens' Savings Accounts
- ▶ Mortgages
- ▶ Student Current Accounts

Fairbanking research, combined with industry expert input, has identified drivers of financial well-being and identified money management practices that help customers positively change behaviour. These findings have generated benchmarks for products against which to measure the customer financial well-being that the product offers.

As part of a Fairbanking Mark assessment, we will work with you to identify, validate and confirm whether your products meet our functional standards and, if they do, the Fairbanking Mark will be granted in either a three, four or five star version. As part of our assessment process we survey, either via telephone or online, your customers' reactions to specific features.

In addition to the features outlined, we also consider a number of fairness factors to ensure that the product adheres to the Foundation's principle of fairness. These factors vary by product but will include a review of your product specific complaints, ensuring interest charges and fees are at an acceptable market level and that there are no restrictive practices relating to the product.

The product features outlined in this specification form the basis for our Regular Savings Fairbanking Mark assessment. To evaluate the potential for a Fairbanking Mark on your product, please either specify your answer by selecting Yes or No to the questions adding any relevant comments and submit the form.
